Clinical Topics to BE Discussed at 2015 ENA General Assembly:

This year’s General Assembly presents us with an opportunity to concentrate on clinical issues that are of interest to our members.

Delegates have been sent a survey to prioritize the clinical practice issue topics listed above for discussion during General Assembly. The topic issues ranked with highest importance will be discussed during General Assembly. The remaining topics will be reviewed by the ENA Board of Directors and recommendations will be provided in addressing the issues. Send any questions regarding the clinical practice issue discussions to be held during the 2015 General Assembly to president@nysena.org.

2015 NYS ENA Delegates are:
